What is NPTEL?

NPTEL is an initiative by the IITs (IIT Bombay, Delhi, Guwahati, Kanpur, Kharagpur, Madras and Roorkee) and IISc along with full financial support by MHRD.

The main objective of the National Programme on Technology Enhanced Learning (NPTEL) is to enhance the quality of engineering and science education in the country by developing contents for undergraduate and postgraduate curricula using video and web based courses. These courses cover the syllabi prescribed by universities and approved by AICTE.

The basic objective of science and engineering education in India is to devise and guide reforms that will transform India into a strong and vibrant knowledge economy. In this context, the focus areas for NPTEL project have been i) higher education, ii) professional education, iii) distance education and iv) continuous and open learning, roughly in that order of preference.

Manpower requirement for trained engineers, scientists and technologists is far more than the number of qualified graduates that Indian educational institutions can provide currently. Among these, the number of institutions having fully qualified and trained teachers in all disciplines being taught forms a small fraction. NPTEL helps disseminate teaching/learning content of high quality and uses technology for dissemination.

A large number of students who are unable to attend scholarly institutions will have access to quality content through NPTEL. All those who are gainfully employed in industries and all other walks of life and require continuous training and updating their knowledge can also benefit from well-developed and peer-reviewed course contents by the IITs, IISc and other partner institutions in NPTEL.

About The Institute

The CSMSS Chh. Shahu College of Engineering, Chhatrapati Sambhajinagar, one of the premier institutes in the field of engineering, was established in 2013 by Chhatrapati Shahu Maharaj Shikshan Sanstha (CSMSS). It is affiliated to Dr. Babasaheb Ambedkar Technological University, Lonere, and Raigad, recognized by AICTE, New Delhi and approved by DTE, Maharashtra State, and Mumbai. The Institute offers 8 Undergraduate engineering courses and 6 Postgraduate courses. It has a pollution free, secure, safe and peaceful campus. It is located in the educational environment having various colleges such as Dental, Ayurved, Agriculture, Polytechnic and Engineering. The institute has excellent physical facilities in the form of residential and academic buildings spread over neat, clean and green campus. The institute is involved in a number of technical and co-curricular activities encouraging students to broaden their horizons of thought, innovate and implement their ideas. The institute is considered as one of the best institute in the region and holds the strength to be accountable for the content and quality of education.

Location: Institute is located on Paithan Road. It is about 3 km away from Railway Station and 5 km away from central bus stand.
