| <b>Summary of the event :</b>           | <p><b>Session 1-</b> On 10 th January 2026, a groups of total 413 students from different coaching classes as 1) Ideal classes, Blidkin (233) students 2) Dnyandeep classes, Kannad &amp; Chincholi (95) students 3) DSP classes, Khultabad (85) students visited CSMSS, Chh. Shahu college of engineering, Chh. Sambhajnagar.</p> <p>All the visiting students were warmly welcomed by the college authorities and exam coordinators. After registration and verification, students were guided to the examination halls. The practice CET was conducted in a disciplined and well-organized manner, closely resembling the actual CET examination. Students attempted questions from Physics, Chemistry, and Mathematics under strict time constraints. The examination atmosphere helped them understand seating arrangements, invigilation rules, and the importance of time management. Faculty members were present to supervise and assist wherever needed. the objective of the test is familiarizing students with the actual CET examination pattern, environment, and procedures, thereby helping them reduce exam-related anxiety and improve their confidence.</p> <p><b>Session 2-</b> After the test, college campus visit was organized as part of the ongoing initiative to foster academic exchanges. The primary aim was to give the visiting students a glimpse of the campus, its facilities, and provide them an opportunity to interact with our faculty and students.</p> <p>The visit began with a comprehensive tour of the college campus. The students were shown the various academic buildings, laboratories, research center, and the library. Special emphasis was placed on the facilities provided for hands-on learning, including Language lab, computer labs, robotics workshop, and the student's innovation center. The visiting students had the chance to interact with the faculty members from various departments, where they were given insights into the academic curriculum, research initiatives, and the overall teaching methodology at our institution. The visiting students also met with some of our current students, who shared their experiences about college life, internships, extracurricular activities, and</p> |

The students were especially interested in the various clubs, competitions, and student-led initiatives that are integral parts of campus life. In addition to the tour, a short workshop or demonstration was organized, where the students were introduced to the latest technological advancements and projects undertaken by our institution. This included a live demonstration in the robotics lab and a discussion on ongoing research projects in the field of artificial intelligence.</p> <p><b>Session 3-</b> After visiting the college campus the short program was conducted in the college auditorium to provide students with firsthand knowledge of the academic environment, career-building opportunities by Hon. Principal Dr. G,B Dongre sir, and insights into the complete admission process by the HOD of first Year engineering department Dr. S.L Dhondge sir, right from the beginning to end of the process along with the requirement of essential documents for engineering college admission.</p>   |
| <p><b>Outcomes :</b></p> | <p>The Campus Visit Program successfully achieved its intended objectives. The key outcomes are as follows:</p> <ol style="list-style-type: none"><li><b>1. Enhanced Awareness</b><br/>Students gained a clear understanding of engineering education, branches, curriculum structure, and future career pathways.</li><li><b>2. Real-Time CET Exposure</b><br/>The MHT-CET practice examination helped students experience an actual examination environment, reducing exam fear and improving confidence.</li><li><b>3. Motivation Towards Engineering</b><br/>Interaction with faculty members and exposure to modern laboratories motivated students to pursue engineering education with clarity and purpose.</li><li><b>4. Understanding of Campus Life</b><br/>Students became familiar with academic facilities, hostel surroundings, sports infrastructure, and support services, helping them visualize college life.</li><li><b>5. Career Orientation</b><br/>The Career Orientation session provided students with valuable insights into <b>emerging technologies</b>, required <b>technical and soft skills</b>, and <b>current industry expectations</b>. Students were guided about engineering career opportunities and the importance of practical knowledge, innovation, and adaptability. The session also explained the <b>MHT-CET examination</b> and the <b>Centralized Admission Process (CAP)</b> in brief, including eligibility and required documents, helping students understand the complete admission procedure clearly and confidently.</li><li><b>6. | <b>Conclusion :</b> | <p>The Campus Visit Program for Class 12th Science students proved to be <b>highly successful and impactful</b>. It provided holistic exposure to engineering education through academic interaction, practical examination experience, and career guidance. The well-coordinated efforts of faculty members, staff, and organizing committees ensured smooth execution of the program.</p> <p>Such initiatives play a crucial role in guiding students at a critical career decision stage and contribute to enhancing the reputation of the institution as a center of quality technical education. The Department of First Year Engineering looks forward to organizing similar outreach programs in the future to inspire young minds towards engineering and innovation.</p> |
