|	
Summary of the event:	The Department of Artificial Intelligence and Data Science organized an event 'Codequest: Coding and Quiz Competition' on 22nd May 2025.
	The event showcased the technical skills and quick thinking of participants through an engaging coding and quiz competition featuring a buzzer round. Students enthusiastically participated, demonstrating their knowledge in programming and problem-solving.
	The competition created a dynamic and competitive environment, fostering teamwork and learning. At the end of the event, all participants were awarded certificates in appreciation of their performance and participation. Winners of both the competitions were rewarded with prizes and certificates of appreciation. The event concluded with a vote of thanks, celebrating a successful and intellectually stimulating experience.
No. of Participants /Attendee:	Coding Competition: 61 participants Quiz Competition: 55 teams (3 members per team)
Outcome(s):	➤ Successfully conducted a coding and quiz competition promoting technical skills and logical thinking among students. ➤ Encouraged active student participation in both individual and team-based problem-solving activities. ➤ Enhanced quick decision-making and time management skills through the Quiz Competition. ➤ Recognized and rewarded winners with prizes and certificates, motivating academic excellence. ➤ Fostered a competitive yet collaborative environment that supported learning and innovation.
