### Research & Development Cell (R&DC) Activity Report

|                                 |                                                                                                                                                                                                                                              |
|---------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Name of the event:</b>       | <b>Expert Lecture for B.Tech Students on Project Preparation</b>                                                                                                                                                                             |
| <b>Date of the event:</b>       | 18 <sup>th</sup> September 2025                                                                                                                                                                                                              |
| <b>Organized by:</b>            | Department of Civil Engineering, CSMSS Chh. Shahu College of Engineering, Kanchanwadi, Chh.Sambhajinagar.                                                                                                                                    |
| <b>Under the Initiative:</b>    | Research & Development Cell, Department of Civil Engineering                                                                                                                                                                                 |
| <b>Speaker:</b>                 | <b>Dr.A.L.Varne</b><br>Professor, Department of Civil Engineering.<br><br><b>Dr.P.D.Dabhade</b><br>Associate Professor, Department of Civil Engineering.                                                                                     |
| <b>Target Audience:</b>         | Students of B.Tech Civil Engineering Department.                                                                                                                                                                                             |
| <b>Venue / Platform / Mode:</b> | Department of Civil Engineering<br><br>Offline Mode                                                                                                                                                                                          |
| <b>Coordinator:</b>             | <b>Dr.A.L.Varne, Dr.P.D.Dabhade</b>                                                                                                                                                                                                          |
| <b>Objective:</b>               | Guidance on Final year project preparation.                                                                                                                                                                                                  |
| <b>Overview</b>                 | Guidance lecture for B.Tech Civil engineering students to selection of project topics and start their progress on Project work.                                                                                                              |
| <b>Participation</b>            | Students of B.Tech Civil Engineering Department                                                                                                                                                                                              |
| <b>Fees:</b>                    | <b>No fees</b>                                                                                                                                                                                                                               |
| <b>Key Outcomes:</b>            | <ul style="list-style-type: none"><li>➤ Understand research process.</li><li>➤ Improve project report structuring &amp; writing skills.</li><li>➤ Learn literature review and writing.</li><li>➤ Learn ethical research practices.</li></ul> |
| <b>Conclusion:</b>              | Session helps students of B.Tech Civil engineering in selection of project topics and start their progress on Project work.                                                                                                                  |
